

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

GEORGE PHILIP & SON, LONDON & LIVERPOOL.

Note

The larger Map shows the division of the Holy Land during the New Testament period. It contains all the ancient cities (marked as well as every town) that have hitherto been identified. The few names that are placed (very occasionally) are distinguished by a note of interrogation attached.

The map is drawn on a broken line, are only winter torrents, not perennial streams. The modern names of the rivers are added to the ancient names, in parentheses (thus: Jordan (Nahr el-Yarden)).

The scale of this Map is the same as that of the Map of Switzerland, and exactly double that of the Map of England & Wales. The smaller scale map is one fourth the scale of the larger map, it is nearly half that of the Map of England.

PHILIPS SERIES OF MAPS.

PHILIPS' SERIES OF LARGE SCHOOL-ROOM MAPS, with the Physical Features boldly and distinctly delineated, and the Political Boundaries carefully coloured. Constructed by William Hughes, F.R.G.S. Size—5 feet 8 inches by 4 feet 6 inches. *Mounted on rollers and varnished*, . . . each 16s. 0d.

THE SERIES COMPRISES		
THE WORLD, IN HEMISPHERES	NORTH AMERICA	SCOTLAND
EUROPE	SOUTH AMERICA	IRELAND
ASIA	CANADA	PALESTINE
AFRICA	AUSTRALASIA	PHYSICAL MAP OF THE WORLD
	ENGLAND	

PHILIPS' COMMERCIAL AND INDUSTRIAL MAP OF ENGLAND, WALES, AND PART OF SCOTLAND, shewing the Lines of Railway, the seats of the principal Manufactures, and the districts of Mines and Minerals; distinguishing Canals and Navigable Rivers, tracing the Tracks of Foreign and Coasting Steam Vessels, and marking the position of Lighthouses, &c. Constructed from the most Authentic Sources. Revised and corrected by William Hughes, F.R.G.S. Size—6 feet by 4 feet 9 inches. *Mounted on rollers and varnished, or in handsome morocco case for the Library*. . . £2 12s. 6d.

The Publishers, in announcing their **NEW INDUSTRIAL MAP OF ENGLAND**, have every confidence in submitting it to the public, as a Map unequalled in point of utility, accuracy, and beauty of execution, by any similar production in this country. The **INDUSTRIAL AND COMMERCIAL** information it contains forms a novel and valuable feature, and is especially interesting. The chief Trades and Manufactures are denoted by various Signs, attached to the names of the principal Towns; the Mines and Minerals are also distinguished in a similar manner in the districts in which they occur. A full and clear explanation of these Signs is given in a Table at the foot of the Map, which also shows at one view the chief Natural Productions and Manufactures peculiar to each County. The style of engraving is clear and distinct, and although every Town and Village of any note is accurately laid down, it is not unnecessarily crowded, which is so frequently the case in other Maps.

PHILIPS' NEW MAP OF EUROPE, in Four Sheets, with all the Railways in the United Kingdom and the Continent accurately laid down. Engraved in the best style. Size—48 inches by 49 inches. *Mounted on black rollers and varnished*. . . £1 5s. 0d.
Mounted on cloth and in case, for the Library. . . £1 1s. 0d.

"This is an useful, valuable, and carefully executed undertaking, embracing all the most recent improvements. It is got up on a liberal scale, that does great credit to the publishers. We heartily recommend it to the traveller, and consider it an acquisition to the public seminary equally as the private library of the gentleman."—*Metropolitan*.

PHILIPS' MAP OF THE WORLD, ON MERCATOR'S PROJECTION, with the Hemispheres on the Horizon of London, beautifully engraved on steel, and including the latest discoveries down to the date of publication. Size—53 inches by 36 inches. *Mounted on rollers and varnished*. . . £1 5s. 0d.
Mounted on cloth and in case. . . £1 1s. 0d.

The peculiar advantages of this Map over those previously published on a large scale, on the same projection, are—first, the repeating of the British Islands at both extremities of the Map, whereby the entire space round the globe may be judged in an easterly and westerly direction; secondly, the more modern, full, and correct information which it contains; thirdly, the delineation of the co-tidal lines of the sea. To these may be added, the superior style in which it is executed, and the cheap price at which it is sold. These advantages, all of which are obvious and substantial ones, can hardly fail in rendering the Map a general favourite with the public, and an indispensable requisite to every student of Geography.

PHILIPS' NEW MAP OF THE WORLD, IN HEMISPHERES, with Scenic Views of the Waterfalls, Mountains, Rivers, Co-tidal Lines, &c. Constructed from the best Authorities, and beautifully engraved on steel. Size—42 inches by 30 inches. *Mounted on rollers and varnished*. . . 10s. 6d.
On steel, coloured. . . 5s. 0d.

PHILIPS' NEW MAP OF INDIA, constructed by W. Hughes, F.R.G.S., from the most authentic sources. The recently-acquired British territory is clearly laid down, and a valuable Statistical Table, giving the details of the resources of the whole country, has been added. Engraved in the best style. Size—40 inches by 28 inches. *On sheet, carefully coloured*. . . 6s. 0d.
Mounted on cloth and in case. . . 10s. 6d.
Mounted on black rollers and varnished. . . 15s. 0d.

PHILIPS' NEW MAP OF THE GOLD-PRODUCING COLONIES OF AUSTRALIA, comprising the three Provinces of New South Wales, Victoria, and South Australia; constructed from recent Surveys, &c. The Gold and other Mining Districts carefully laid down from Parliamentary Returns and other Official Documents. Size—40 by 26 inches. *Mounted on rollers and varnished*. 10s. 6d.
Mounted on cloth and in case. . . 5s. 0d.

PHILIPS' NEW MAP OF SOUTH AFRICA, on sheet, carefully coloured. . . 2s. 6d.
Mounted on cloth and in case. . . 4s. 6d.
Mounted on black rollers and varnished. . . 6s. 0d.

The results of modern travel and research in the interior of Southern Africa, have opened up prospects of a new and vast field for Commercial enterprise, which the further explorations still being carried on will, no doubt, enable us to realize.

All the recent investigations, so interesting and important in their results, are here embodied; and every available source of information has been made use of to render this Map as complete as the present state of geographical knowledge will permit.

PHILIPS' NEW MAP OF THE UNITED STATES, INCLUDING PART OF BRITISH AMERICA, MEXICO, YUCATAN, AND THE WEST INDIES, and exhibiting the country from the Atlantic to the Pacific, and from 54° North Latitude to the Bay of Honduras, including the British Colony of Belize. In four sheets, size 4 feet 6 inches by 3 feet 2 inches. *On sheets, carefully coloured*. . . £0 15s. 0d.
Mounted on cloth and in case. . . £1 5s. 0d.
Mounted on black rollers and varnished. . . £1 10s. 0d.

The vast extent of country embraced in this Map, which has been recently constructed from American sources of the highest authority, and the importance of the extensive field of enterprise which it comprehends, renders it an essential aid in the Counting-house, and to all those connected with or interested in the onward progress of the United States and Canada, and our daily-increasing intercourse with their shores. It gives the best delineation extant of the newly-acquired States and Territories on the Pacific; and the Railroads and Canals are laid down throughout with the utmost accuracy. A series of curved lines encircle the City of New York, at distances of 100 miles, embracing the country included within the settled States of the union.

PHILIPS' NEW MAP OF SOUTH AMERICA, on sheet, carefully coloured. . . 6s. 0d.
Mounted on cloth and in case. . . 10s. 6d.
Mounted on black rollers and varnished. . . 15s. 0d.

This Map has been compiled by Mr. PETERMANN, *Physical Geographer to the Queen*, from the most recent Authorities; and corrected and amplified from materials exclusively at the command of that accomplished Geographer, whose name affords a guarantee of its superior accuracy and completeness of detail.

PHILIPS' SERIES OF OUTLINE MAPS, corresponding in size with the Maps of "Philips' Comprehensive School Atlas," for the use of Schools and for Private Tuition. Printed on fine Drawing Paper. . . each 3d.

PHILIPS' SERIES OF BLANK PROJECTIONS, with the Lines of Longitude and Latitude, corresponding in size with the Maps of "Philips' Comprehensive School Atlas," and intended for the use of Students learning to construct Maps. Printed on Drawing Paper. . . each 3d.
